

Ingrid BECK – Biography

Ingrid Beck is a prominent Argentine journalist, writer, and activist known for her commitment to addressing the critical issue of digital violence. As a co-founder of the Ni Una Menos movement, she has been at the forefront of the fight against gender-based violence in Argentina, advocating for women's rights and safety.

With a career spanning over two decades, Beck has utilized her platform to raise awareness about various forms of online harassment and their impact on individuals, particularly women. Her work highlights the intersection of technology and gender-based violence, advocating for the rights of victims and promoting digital safety.

In addition to her journalism, Beck is a co-author of the report *Online Gender-Based Violence Against Women with Public Voices: Impact on Freedom of Expression*, conducted for UN Women and the Regional Alliance for Free Expression and Information in 2022. She works with Fundación Huésped, an organization dedicated to promoting health, human rights, and social justice, with a particular focus on vulnerable populations and the prevention of diseases.
